

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

The total amount of original and increased capital stock is \$211,-425,976, as compared with \$177,299,440 for the year 1902, being an increase of \$34,126,536.

The total amount of reductions of capital stock for the year was \$25,028,400, showing that the total of increases of capital stock exceeded the reductions by \$76,029,751.

## INITIAL CORPORATION FEES, COMMISSIONS, ETC.

Receipts from initial corporation fees and other miscellaneous sources during the year amounted to the sum of \$305,559.78, an increase of \$63,328.18, as compared with 1902, and the largest annual receipts from these sources in the history of the State.

The quarterly receipts were as follows:

First Quarter .....	\$91,841 12
Second Quarter .....	94,464 63
Third Quarter .....	76,071 02
Fourth Quarter .....	43,183 01

Derived from the following sources:

	Domestic Corporations.	Foreign Corporations.	Official Commissions.	Certified Transcripts, Etc.	Howe's Historical Collections.	Geological Survey of Ohio.	Itinerant Vendors' License.	Total.

It will be observed that the general receipts above shown are made up mostly of initial fees of domestic and foreign corporations. These initial fees were required to be paid under several acts of the General Assembly, passed from time to time, from 1889 to 1894. The growth of corporation business since the enactment of these laws is shown by the following:

## DEPARTMENT OF CORPORATION REPORTS.

Under the act of April 11, 1902, known as the Willis law, all corporations doing business in Ohio are required to file annual reports with the Secretary of State and pay annual fees therefor at the time and in the amount as follows:

**Domestic Corporations:** During the month of May, one-tenth of one per cent. upon the subscribed or issued and outstanding capital stock, and not less than ten dollars in any case.

**Foreign Corporations:** During the month of September, one-tenth of one per cent. upon the proportion of authorized capital stock represented by property owned and used and business transacted in Ohio, and not less than ten dollars in any case.

**Domestic Corporations, not for Profit:** During the month of December, one dollar each, except corporations organized under section 148, paragraph 4, ten dollars.

The number of annual reports filed and annual fees collected under the Willis law for the year 1902 are as follows:

Reports Filed and Fees Collected in 1902.	Number.	Fees.
<i>Domestic Corporations for Profit—</i>		
Number of reports filed to and including November 15, and amount of fees collected.....	4,575	\$428,048 83
Number of reports filed since November 15, and amount of fees collected.....	125	12,174 57
Total number of reports filed and amount of fees collected for the year.....	4,700	\$440,259 40
<i>Foreign Corporations—</i>		
Number of reports filed for year.....	601	
Amount of fees collected to and including November 15.....		\$120,000 00
Amount of fees collected since November 15.....		47,334 03
Total number of reports filed and fees collected for the year .....	601	\$167,334 03
<i>Summary—</i>		
Total number annual reports, foreign and domestic, for the year, and fees collected.....	5,301	\$607,593 43
<i>Initial Fees—</i>		
Amount collected for the year.....		\$242,231 60
<i>Recapitulation—</i>		
Total receipts from all sources for the year.....		\$849,825 03

The number of annual reports filed and annual fees collected under the Willis law for the year 1903 are as follows:

Reports Filed and Fees Collected in 1903.	Number.	Fees.
<i>Domestic Corporations for Profit—</i>		
Number of reports filed to and including November 15, and amount of fees collected.....	5,423	\$463,439 63
<i>Foreign Corporations—</i>		
Number of reports filed to and including November 15, and amount of fees collected.....	764	170,225 73
<i>Domestic Corporations Not for Profit—</i>		
Number of reports filed to and including November 15, and amount of fees collected.....	2,016	2,151 00
<i>Summary—</i>		
Total number annual reports filed for the year, and amount of fees collected.....	8,203	\$635,816 36
<i>Initial Fees—</i>		
Amount collected for the year.....		\$305,559 78
<i>Recapitulation—</i>		
Total receipts from all sources for the year.....		\$941,376 14

The law provides that any corporation aggrieved by the decision of the Secretary of State in the determination of the amount of fees due may appeal to the Auditor of State, Treasurer of State and Attorney General, whose decision is final. Several cases of this kind are pending before the appeal board. Other reports for the year 1903 were not filed prior to November 15.

From these sources the estimated amount of unpaid fees is \$16,000.

Total receipts from all sources for the year 1903, including estimated amount of unpaid fees, \$957,376.14.

The act of April 18, 1902, affords an inexpensive method for the voluntary dissolution of domestic corporations, which have closed their business and paid all the debts and liabilities incurred; and one section of the Willis law provides that foreign corporations may file certificates of retirement when they cease to do business in this state.

The number of dissolutions and retirements of corporations under these laws for the year 1902 was 877.

Fees for filing same, \$1,453.00.

The number of such certificates for the year 1903 was 665.

Fees for filing the same, \$2,413.00.

These fees are included in the general receipts for the corresponding years.

The operation of the Willis law is very satisfactory, and fully justifies the claims made for it at the time of its passage.

The work of creating a new department of corporation reports has added greatly to the duties of the Secretary of State, and made necessary the employment of additional clerks and an increase of contingent expenses. Some time will be required to perfect the system of annual reports of the different classes of corporations and to secure the prompt collection of the large sum received each year under this new revenue measure. Experience has shown the need of some slight amendments to the law to facilitate its execution without affecting the principle upon which it is based.

#### CONSTITUTIONAL AMENDMENT.

A proposition was submitted to the electors of the state by the 75th General Assembly to amend section 3 of article XIII of the Constitution so that it shall read as follows:

#### ARTICLE XIII.

Section 3. Dues from private corporations shall be secured by such means as may be prescribed by law, but in no case shall any stockholder be individually liable otherwise than for the unpaid stock owned by him or her.

The returns of votes cast upon this amendment were canvassed on November 21, 1903, as follows:

Total number of votes cast at said election was.....	877,203
Total number of votes cast for the "single liability amendment"	
was .....	751,783
Total number of votes cast against the "single liability amendment"	
was .....	30,988

On the same date, November 21, the Governor issued a proclamation declaring that this amendment "has been incorporated into the constitution of the State of Ohio and is hereafter to be obeyed and observed as part thereof."

It is believed that the adoption of the single liability amendment, and the laws previously enacted favorable to corporations, will largely increase the number of Ohio corporations. Foreign charters for Ohio business will be hereafter a burden rather than a benefit to resident incorporators. The expense of initial and annual fees in a foreign state would be saved by incorporating as a domestic corporation, and the annual fee would be based on the subscribed capital stock instead of the authorized capital stock, as required of a foreign corporation doing business in this state.

## SUPREME COURT REPORTS.

During the year the following volumes of the Supreme Court Reports were issued:

To the Supreme Court of Ohio, 25 copies of volume 66, and one copy of volume 67, and one copy each of volumes 53 to 65, inclusive, Ohio State Reports; Governor, one copy each of volumes 66 and 67; Attorney General, two copies each of volumes 66 and 67; Insurance Department, one copy of volume 66; Dairy and Food Commissioner, one copy of volume 66; Ohio State Library, one copy each of volumes 66 and 67; Secretary of State, one copy each of volumes 66 and 67; Commissioner of Common Schools, one copy of volumes 66 and 67; Clerk of Courts of each of the 88 counties of the state, one copy of volumes 66 and 67; Clerk of Courts of Harrison County, one copy of volume 64; Clerk of Courts of Hamilton County, one copy each of volumes 61 to 65, inclusive; Attorney General of the United States, Washington, D. ## PLATFORMS OF POLITICAL ORGANIZATIONS ADOPTED IN OHIO DURING THE YEAR 1903.

---

### REPUBLICAN PLATFORM.

The Republicans of Ohio rejoice in the results of Republican administration in the state and nation. It has promoted the welfare of the entire country. Past achievements insure the faithful performance of new duties.

Ohio enters upon her second century of statehood with a record unequalled. Republican control has aided immeasurably in placing our state in the very forefront of the union of states comprising the world's greatest nation.

We commend President Roosevelt's fidelity to duty, his adherence to President McKinley's policies, and his own proved ability in his high office, showing him in every way worthy of election by the people to be their chief magistrate. We favor his nomination for president in 1904.

The Ohio Republican delegation in congress has honored the state in both houses. Senators Joseph B. Foraker and Marcus A. Hanna have splendidly maintained Ohio's leadership. The re-election of Senator Hanna is a distinct national demand upon our state, and we hereby cordially promise him the undivided support of the entire Republican party of Ohio.

Governor George K. Nash and his able assistants in the state offices, for their faithful and successful administration, deserve the generous commendation and gratitude of the people.

In Ohio, as in the nation, Republican achievements compel popular approval. Our state debt is canceled, the cash surplus in our treasury is the greatest on record, the state institutions were never more efficiently or economically conducted, and yet the state tax rate has been reduced by half through Republican laws, whereby corporate interests are required to bear a more equitable share of the burden of taxation, so far as is possible under the constitutional restrictions of Ohio's present organic law. We favor removing limitations which prevent a more just system of taxation, so that property can be adequately classified for taxation purposes, and invite the most careful consideration of the amendment for that purpose to be voted upon at the election next November.

Ohio ought not to discriminate longer against her own corporations, thus cutting off possible revenues and other benefits, and we therefore favor and indorse the amendment to remove the present provision

in our state constitution for the double liability of stockholders. We also favor the amendments to vest the governor with the veto power, and to provide for county legislative districts, so that each county will have at least one member in the lower house of each general assembly, and we authorize our endorsement of these amendments upon our official ballots.

The home waterways, the Ohio public works, can be modernized at a cost so moderate as not to weigh against the vast benefits to be derived. They started our state on its prosperity, put millions into its treasury, and can do so again, if, instead of the perpetual threat of abandonment, they are accorded a degree of encouragement commensurate with their importance, and we favor their maintenance upon a basis of efficiency creditable to the state and adapted to the traffic necessities of our growing commerce.

The question of transportation is one of the most important business problems now before the American people for determination. The full utilization of our inland waterways is demanded by all business interests. We therefore favor the continued improvement by the general government of the Ohio river, that a navigable stage of water may be maintained the entire year.

The Seventy-fifth General Assembly also shares justly in the praise due for the scope and excellence of its accomplished results.

The tangled confusion of special laws for all the cities and villages of Ohio has given place to a systematic municipal code, conformable to the constitution, and promising to work well wherever properly administered by competent officials. We also commend to the attention of the voters of Ohio the pending amendment to the constitution for dividing the cities into three classes.

As Republican legislation has always provided work for those who would work, while Democratic free trade has produced the opposite result, so the labor laws, state and national, have been largely of Republican origin. We favor their extension in every way equitable to all, particularly those designed to promote harmonious conditions, and to secure for labor just recognition in the settlement of differences. Public welfare demands this quite as much as the interests of employers and employed.

Better roads would save Ohio's citizens millions of dollars yearly, and should be systematically established by the state and federal governments. They are especially needed on account of the rural free mail delivery system, for which the demand is now well nigh universal. Inaugurated by Republicans, a Democratic administration refused it a trial, and Republicans have now proved its value. We favor the extension of the system as rapidly as possible wherever desired.

Public improvements have invariably been favored by the Republican party, benefiting the entire country many times their total cost. Every

citizen interested in better rivers and harbors, public highways, improved postal service, forest preservation, flood prevention, the great Isthmian canal, and other enterprises of like character, has his rightful home only in the Republican party, where progress has never been opposed.

Nearly three thousand millions of dollars paid to pensioners since the Republican party came into power, almost all of it under legislation enacted without a dissenting Republican vote in Congress, but always against Democratic opposition, attest the contrast between the parties in this respect, and yet further liberality was evidenced by the pension legislation of the last congress.

The improvement in our relations with the Philippine islands is attested by the reduction of our army to the lowest legal limit. Education and enlightenment under broad-minded administrative policy are gradually obviating the necessity for control through military power, and we commend the rapid and steady progress made in the preparation of the Philippines for the fullest practical degree of self-government. In this connection we voice the grateful acknowledgment of the nation for the splendid services in the Philippines of that distinguished son of Ohio, Governor-General William H. Taft.

Under Presidents McKinley and Roosevelt, our foreign policy of equity to all has made the United States the peacemaker of the world, guarding weaker nations from aggression, and giving the Monroe doctrine a vital force greater than ever before.

As America's part in preserving the peace of the world, we endorse the Republican policy of developing the United States navy to the highest efficiency, and we favor every encouragement possible to our merchant marine in the extension of American commerce in American ships upon every sea.

The protective tariff policy of the Republican party has made the United States the greatest industrial nation, astonishing the world with the tremendous development of our boundless resources; has added vastly to our foreign commerce; has greatly increased the prosperity of the farmer, and has advanced American labor to the best scale of living ever attained. We oppose all attacks upon this policy, whatever the pretext, as tending to bring back the disastrous days of Democratic tariff revision and free trade. Changing conditions and the possible benefits of reciprocity may call for timely readjustment of schedules, but protection as a principle and as a policy must be administered by the friends of American prosperity, and must not be sacrificed.

Combinations for the monopoly of trade and kindred unlawful purposes are directly amenable to penalties provided by Republican legislation and their vigorous enforcement in the courts. No worthy interest is imperiled, but whatever will work public harm is restrained, and that without resort to the Democratic plan of destroying all American industries through tariff revision or otherwise. If further legislation should be

found necessary, the Republican party can be depended upon to enact and enforce it with equity and safety to every legitimate interest.

The Republican party, having restored the National credit after it was nearly destroyed by the Democratic party, and having maintained, defended and advanced it to the highest in the world, with every dollar of full value, and having given to the people the only banking system that operates uniformly everywhere without loss, and at lowest cost, should now endeavor within safe lines to stimulate local bank circulation, thus securing an elasticity of currency supply commensurate with business demands, and we favor well-guarded legislation to this end.

Ohio was the first state with soil forever free from the stain of slavery. Pledged by the great creative ordinance of 1787 "to the fundamental principles of civil and religious liberty," and bound thereby to "forever remain a part of the United States of America," Ohio was foremost in the war to preserve "the indestructible Union of indestructible states," and adheres firmly to every amendment which that war wrote into our country's constitution as binding in honor upon every American citizen. Therefore, we hold fast to the doctrine of equity everywhere in the exercise of the elective franchise, maintaining that justice requires any state excluding any of its citizens from the ballot to be proportionately reduced in its representation in the electoral college and the lower house of the national congress.

From its earliest day the Republican party has accomplished great results in the state and nation, and without resting upon its laurels, has continually pressed forward to new duties. Unremittingly it seeks to establish whatever is safe, wise and truly progressive, and in furtherance of its great and patriotic purposes, it invites most cordially the co-operation and support of all who sincerely desire to promote our country's highest welfare.

#### DEMOCRATIC PLATFORM.

Assembled in convention at Columbus, preparatory to the state election of 1903, we, the Democrats of Ohio, re-affirming the declarations on national issues of our platform of 1902, adopted at Sandusky, hereby renew our allegiance to the Democratic party of the nation, and again avow our devotion to the principles of its last national platform. We accordingly condemn colonialism and imperialism, denounce trusts and trust-fostering tariffs, repudiate government by injunction, and oppose financial monopoly, together with every other legalized monopoly and special privilege. Adhering to these principles of the Kansas City platform, we repeat our condemnation of all efforts to renounce or ignore them.

We nevertheless urge the people of Ohio, regardless of party, to consider the transcendent importance of state over national issues at the

coming election. National policies are not at stake. Although one seat in the United States Senate depends upon the political complexion of our next legislature, no other national consideration does; and the Republican party is so largely in the majority in the United States Senate as to deprive that consideration of all practical importance. The vital question, therefore, which now confronts the voters of our state, Republicans as well as Democrats, is a local question. They are to determine whether the personal ambitions of one man for re-election to the federal senate shall be gratified at the expense of placing the vast local interests of all the people of Ohio at the mercy of a state government nominated by and in alliance with the privileged corporations.

Let the people of Ohio consider what is really involved in this election. Great corporations, possessing valuable and oppressive franchises and reaching out for more, have effected a union with the leaders of the Republican party in Ohio. So intimate has this union grown, that it can no longer be determined where the legitimate politics of the Republican party leaves off and the corrupt politics of the privileged corporations begin. In consequence of that coalition of corporation magnates with Republican managers in some instances identical in person, the people of all political parties have been systematically plundered and oppressed.

Thus manipulated, the Republican party has been treacherously led by its more recent managers, farther and farther into the service of special interests inimical to the public welfare. It has been made to protect and foster monopolies. Its officials have burdened the farmers and small home owners of the state with excessive taxes in order to relieve public service corporations of their just obligations. It has enacted unconstitutional special laws. It has thrown the city and village governments of the state into confusion, thereby entailing large and useless expenditures of public money, impairing municipal credit and imposing upon the state treasury the cost of a special session of the General Assembly. To remedy the evils thus caused, the present managers of the Republican party have forced the enactment of a cumbersome and centralizing municipal code for the government of our cities and villages, framing its provisions in defiance of the wishes of the cities concerned, in disregard of the expressed opinions of the State Bar Association and the state and municipal chambers of commerce, and with indifference to the plain lessons of experience in Ohio and elsewhere.

By embodying in this code unwise and unjust provisions for the regulation of street railroads, these Republican managers have rendered competition more difficult and street car monopolies more secure. By reserving to the governor the power to appoint municipal officers in certain cases, they have dangerously concentrated the police power and have complicated their meager concessions of home rule with tempting opportunities for interference by the state government in the local affairs of cities and villages. A precedent has thus been set that would altogether nullify the principle of home rule.

The corrupt union which the Republican managers of Ohio, treacherous alike to the rank and file of their own party and to the rest of the people, have made with privileged corporations, is further shown by the recent history of Ohio taxation. After repeated acknowledgments by the Republican party, in its platform and other public declarations, of the injustice of existing tax laws, the Republican legislature has rejected even the simplest of remedies. The law by which telegraph, telephone and express companies are taxed, provides a simple method of arriving at the real value for taxation of steam railroad, street railroad, and similar classes of franchise property. Yet the Republican legislature refused to apply that method to the property of those powerful corporations. Acting in the interest of the privileged corporations, it has retained the objectionable laws under which, with the aid of friendly state equalizing boards and local auditors, steam railroads and street car companies have for years been able to shift from themselves to the small home owners and farmers of the state, two-thirds of the burden of taxation which in justice these corporations ought to bear.

By way of pretended remedy for this flagrant abuse, the legislature has, at the dictation of Republican managers and their corporate allies, imposed an annual tax upon the capital stock of all corporations, including unprivileged business companies. While bringing a diminishing revenue into the state treasury and proving a burdensome restriction upon legitimate business, this tax will fall most heavily upon corporations least able to bear it, and will practically exempt those that are enriched by valuable special privileges.

Besides making such trifling and deceptive alterations in our tax laws in the name of remedial legislation, the Republican managers have been guilty of manifest duplicity. In deference to overwhelming public demands for tax reform, they permitted the adoption by the legislature of a resolution submitting to the people an amendment to the state constitution authorizing a fair classification of property for purposes of taxation. But supposing that now the popular feeling on the subject may have temporarily subsided, yet not daring to risk a popular vote on this amendment, they have prevented the Republican convention from approving it. The amendment is thereby deprived of the benefit of a place in the Republican column on the official ballot.

In consequence of the alliance of privileged corporations and Republican managers in Ohio, the recent history of the Republican party of this state in connection with taxation is a glaring and unvarying record of double dealing with the people, of favoritism toward railroad, street car, and other public service corporations, of arbitrary interference with such local officials as have tried to remedy these abuses, and of free pass bribery — open, bold and habitual — together with indications of kinds of bribery more profitable and potent, though less audacious. With such a record, it is natural that the Republican leaders and their corporate allies

and beneficiaries should endeavor to evade a campaign on state issues. Their bad record in state and municipal government is explanation enough of their challenge to a controversy upon national issues, at a time when and in a state where no national principle or policy is at stake, either directly or indirectly.

That the alliance of Republican leaders in Ohio with the privileged corporations has the aid of some Ohio Democrats, we freely concede. But these Democrats are not in control of the Democratic party of the state; and that party as now organized is rebuking and disowning them as fast as it finds them out. An object lesson on this point was furnished at the special session of the legislature. Eight Democratic legislators supported the corporation alliance by voting for the Cincinnati "curative act." For this treachery to their party and violation of their pledges to the people, every one of them has been relegated to private life by the Democratic party. While conceding that some Ohio Democrats are corruptly allied with the privileged corporations, we ask the people of the state to observe an important fact in that connection. In the Democratic party as now organized, Democrats who serve such alliances are punished, whereas, in the Republican party as now controlled, Republicans who make such alliances are rewarded.

We confidently believe that the awakened voters of the Republican party in Ohio will no longer tolerate the betrayal of the public interests and their own confidence by their party managers and the privileged corporations to whose service those party managers are primarily devoted. Republicans by thousands have refused to do so in the city of Cleveland, where the Democratic party is now successfully leading the fight of the people against the privileged corporations and their confederates in both parties. But this is a state fight and must be waged in every part of the state. The legislature must be recovered from the corporations and restored to its proper place as an agent of popular government. The fight for that object must be unfaltering and unremitting. It must not be for one campaign only, but for all campaigns until the corporations are driven out of politics. The present campaign is especially opportune for this purpose. The absence from it of every reasonable ground for solicitude respecting national issues, enables the people to express themselves without hesitation or reservation in favor of home rule and just taxation and against the continued reign of privileged corporations in the state of Ohio.

As a more specific statement of the principles and purposes of the Democratic party of Ohio on these and other questions, we declare:

1. All taxable property should be appraised by assessing boards, which should be in session for at least a part of each year. Their proceedings and deliberations should be open to the public; and power should be given for the employment of a representative of the public interests at hearings before them. In making assessments, all property should be appraised at not less than its salable value.

2. The present laws for assessing the property of steam railroads and other public service corporations should be so changed as to compel the assessment of those properties at not less than their salable value as going concerns, and to prevent their evasion of just taxation.

3. To prevent evasion of state taxes by discriminating valuations, a separation of the sources of state and local revenues should be made. We, therefore, heartily endorse the constitutional amendment now pending before the people and to be voted on at the coming election, which permits classification of property for taxation.

4. Of the four remaining amendments to the state constitution to be voted upon by the people at the coming election, we hereby declare in favor of the amendment for the readjustment of legislative representation from counties; against the amendment investing the governor with the veto power; in favor of the amendment further limiting the personal liability of stockholders in corporations; and against the amendment for the classification of cities, as affording an opportunity for "ripper" legislation and as hostile to home rule.

5. All public service corporations should be required by law to make sworn public reports, and the power of visitation and examination over such corporations should be given to the proper auditing officers to the end that the true value of the privileges held by such corporations may be made plain to the people.

6. Denouncing the acceptance of free passes and other favors from railroads by public officers or employes, and declaring that this should be adequate ground for their removal, we pledge the Democratic party of Ohio to the enactment of laws giving the people of the state the benefit of a uniform rate of railroad fare at two cents per mile.

7. The denial of the right of peaceable persuasion in times of labor disturbances is a denial of the right of free speech. Government by injunction, if persisted in, will wreck the liberties of the people.

8. We favor absolute home rule for counties, cities and villages, with reference to their local affairs; and demand that the merit system of civil service in cities, as now in use in fire and police departments, be strengthened and perfected, and be extended to other municipal departments, particularly to municipal water and lighting plants already authorized by law, and to street car and all other public service plants as they may hereafter be established under municipal ownership and operation.

9. The municipal code should be so amended as to require that all ordinances granting, renewing, extending, or modifying franchises shall be inoperative until confirmed by a majority vote of the people of the municipality, and to prohibit perpetual franchises altogether. We pledge ourselves also to the principle of the initiative and referendum in all matters of legislation, and to the doctrine of recall as applied to all elected officials. In doing this, we emphasize our faith in the integrity of the people and our belief that they should be permitted to retain in

---

their own hands as much of their sovereign power as is compatible with the convenient transaction of public business. The initiative, referendum and recall should be so adapted to the state, county and municipal affairs, that the principle of home rule may not be curtailed but may rather be more fully conserved.

10. Whereas, railroad and mining corporations have gone into the business of insuring against accidents and death among their employes, fixing the rates of insurance arbitrarily, and compelling employes, as a condition of employment, not only to invest in such insurance but also to waive all claims for injury sustained in the course of their employment, both in their own behalf and in that of their dependents; and whereas such contracts of waiver are opposed to public policy; therefore, we favor the enactment of laws making null and void all contracts by employes of railroads and mining corporations and of other employers, for the waiver or forfeiture of claims for injuries sustained in such employment. We also favor the enactment of laws abolishing the defense of fellow servants' negligence in actions against employers for injuries sustained by workmen in the course of their employment.

11. Among the most important subjects to come before the legislature at its next session is a proposal to enact a general law for the regulation of the public school system of the state. We hereby pledge every Democrat who may be elected to the legislature to work for the enactment of a school law that shall preserve the principle of home rule in school matters and safeguard the children of the state and their parents from the frauds and extortions of book trusts. In this we invite the co-operation of every citizen who believes in the purity of that great American institution — the public school.

12. Under the long-continued rule of the Republican organization in the state, scandalous corruption has grown up in the administration of county affairs by reason of the so-called fee system. We pledge the untiring opposition of the Democratic party to this system. We charge that the action of the Republican legislature in passing an invalid law purporting to be aimed at this evil, was merely a subterfuge, and that the law was never intended to correct the evils and restore a reasonable and economical salary system. We call upon the governor and auditor of state, as well as the prosecuting attorney in each county, to proceed at once to investigate the widespread abuse of the fee system and to visit strict justice upon guilty officials.

13. Until United States senators are required by amendment of the federal constitution to be elected by popular vote, nominations of candidates for United States senator should be made by state conventions.

14. We approve the improvement of the Ohio River, so that it will be navigable for boats of heaviest draught during the entire open season, and the improvement and preservation of the canals of this state.

Upon these principles of home rule and just taxation, and to the accomplishment of these purposes in municipal and state affairs, we invite the co-operation of all citizens of Ohio, regardless of their party affiliations or personal views on national questions, hereby solemnly pledging our candidates to the faithful observance of this platform of principles and declaration of purposes, both in letter and in spirit.

The triumph of these principles will be a triumph for the people of Ohio.

### THE SOCIALIST PLATFORM.

The Socialist party, in national convention assembled, reaffirms its adherence to the principles of international socialism, and declares its aim to be the organization of the working class and those in sympathy with it, into a political party, with the object of conquering the powers of government and using them for the purpose of transforming the present system of private ownership of the means of production and distribution into collective ownership by the entire people.

Formerly the tools of production were simple and owned by the individual worker. To-day the machine, which is but an improved and more developed tool of production, is owned by the capitalists and not by the workers. This ownership enables the capitalists to control the product and keep the workers dependent upon them.

Private ownership of the means of production and distribution is responsible for the ever-increasing uncertainty of livelihood and the poverty and misery of the working class, and it divides society into two hostile classes — the capitalists and wage-workers. The once powerful middle class is rapidly disappearing in the mill of competition. The struggle is now between the capitalist class and the working class. The possession of the means of livelihood gives to the capitalists the control of the government, the press, the pulpit and the schools, and enables them to reduce the workingmen to a state of intellectual, physical and social inferiority, political subservience and virtual slavery.

The economic interests of the capitalist class dominate our entire social system; the lives of the working class are recklessly sacrificed for profit, wars are fomented between nations, indiscriminate slaughter is encouraged and the destruction of whole races is sanctioned in order that the capitalists may extend their commercial dominion abroad and enhance their supremacy at home.

But the same economic causes which developed capitalism are leading to socialism, which will abolish both the capitalist class and the class of wage-workers. And the active force in bringing about this new and higher order of society is the working class. All other classes, despite their apparent or actual conflicts, are alike interested in the upholding of the system of private ownership of the instruments of wealth production.

---

The Democratic, Republican, the bourgeois public ownership parties, and all other parties which do not stand for the complete overthrow of the capitalist system of production, are alike political representatives of the capitalist class.

The workers can most effectually act as a class in their struggle against the collective powers of capitalism by constituting themselves into a political party, distinct from and opposed to all parties formed by the propertied classes.

While we declare that the development of economic conditions tends to the overthrow of the capitalist system, we recognize that the time and manner of the transition to socialism also depends upon the stage of development reached by the proletariat. We, therefore, consider it of the utmost importance, for the Socialist party to support all active efforts of the working class to better its condition and to elect Socialists to political offices, in order to facilitate the attainment of this end.

As such means we advocate :

1. The collective ownership of all means of transportation and communication and all other public utilities, as well as of all industries controlled by monopolies, trusts and combines. No part of the revenue of such industries to be applied to the reduction of taxes on property of the capitalist class, but to be applied wholly to the increase of wages and shortening of the hours of labor of the employes, to the improvement of the service and diminishing the rates to the consumers.
2. The progressive reduction of the hours of labor and the increase of wages, in order to decrease the share of the capitalist and increase the share of the worker in the product of labor.
3. State or national insurance of working people in case of accidents, lack of employment, sickness and want in old age; the funds for this purpose to be furnished by the government and to be administered under the control of the working class.
4. The inauguration of a system of public industries, public credit to be used for that purpose in order that the workers be secured the full product of their labor.
5. The education of all children up to the age of eighteen years, and state and municipal aid for books, clothing and food.
6. Equal civil and political rights for men and women.
7. The initiative and referendum, proportional representation and the right of recall of representatives by their constituents.

But in advocating these measures as steps in the overthrow of capitalism and the establishment of the co-operative commonwealth, we warn the working class against the so-called public ownership movements as an attempt of the capitalist class to secure governmental control of public utilities for the purpose of obtaining greater security in the exploitation of other industries and not for the amelioration of the conditions of the working class.

The national committee of the Socialist party in annual session assembled, hereby reaffirms the attitude of the party toward the trade union movement as expressed in the resolution on the subject adopted by the Indianapolis convention of 1901.

We consider the trade union movement and the Socialist movement as inseparable parts of the general labor movement, produced by the same economic forces and tending towards the same goal, and we deem it the duty of each of the two movements to extend its hearty co-operation and support to the other in its special sphere of activity.

But we are also mindful of the fact that each of the two movements has its own special mission to perform in the struggle for the emancipation of labor, that it devolves upon the trade unions to conduct the economic struggles of the working class, that it devolves on the Socialist party to fight the political battles of the working class, and that the interests of labor as a whole will be best conserved by allowing each of the movements to manage the affairs within its own sphere of activity without active interference by the other.

The Socialist party will continue to give its aid and assistance to the economic struggles of organized labor regardless of the affiliation of the trade unions engaged in the struggle, and will take no sides in any dissensions or strifes within the trade union movement. The party will also continue to solicit the sympathy and support of all trade organizations of labor without allowing itself to be made the ally of any one division of the trade union movement as against another.

We also declare that we deem it unwise to invite trade unions as such to be represented in the political conventions of our party.

#### ANTI-FUSION RESOLUTIONS.

WHEREAS, The history of the labor movement of the world has conclusively demonstrated that a Socialist party is the only political organization able to adequately and consistently conduct the political struggles of the working class, and

WHEREAS, All "radical and reform" parties, including the so-called "Union Labor parties," have, after a brief existence, uniformly succumbed to the influence of the old political parties, and have proven disastrous to the ultimate end of the labor movement, and

WHEREAS, Any alliance, direct or indirect, with such parties is dangerous to the political integrity and the very existence of the Socialist party and the Socialist movement; therefore, be it

*Resolved*, That no state or local organization, or member of the party shall, under any circumstances, fuse, combine or compromise, with any political party or organization, or refrain from making nominations in order to further the interests of candidates of such parties or organizations.

## PROHIBITION PLATFORM.

We, the Prohibitionists of Ohio in convention assembled at Springfield this 27th day of May, 1903, with gratitude to almighty God for the signal growth of prohibition sentiment in the country, reaffirming our unchangeable trust in God and belief in the common people for the final triumph of this reform, and pledging continued allegiance to the national Prohibition party and its doctrines as set forth in the Chicago platform, hereby express our political faith in the following declarations:

The organized liquor traffic rules in the politics of our state to-day with almost absolute power through its domination of the Republican and Democratic parties to whom it dictates the nomination of candidates and largely controls the party machinery to its own aggrandizement. In its boasted and unquestioned influence it has substituted for its own convenience the rule of anarchy for the reign of law, trampling under its cloven feet all restrictive measures and boldly defying even mildest ordinances relating to its business. Thus entrenched in politics, it cares naught for the welfare of the people nor for their opinion, debauching society with its ever increasing gift of criminals, paupers and outcasts. It openly opposes the most sacred rights and institutions of our American civilization and is the only organized force in the state whose creed and practice expresses blasphemy of God and hatred toward His law.

We realize that this monstrous iniquity of our commonwealth wars upon its dearest treasures; preying upon the happiness of its womanhood and thriving upon the destitution of its childhood; and we believe that the statesmanship of the present day will find its greatest glory and most abiding triumph in protecting these weaker elements of our citizenship from the ravages of this great destroyer.

As to the truth of our contention regarding this traffic, we call in evidence the edict of society, the law of morals, the voice of the Church, and the teachings of Christianity — all uniting in one chorus of condemnation. We need not therefore recite the tale of its daily carnival of crime. All know only too well its inevitable fruits — murder, vagrancy, theft, suicide, etc.— the tragic reminders of its awful sequel.

We point to the ineffectual, cowardly and criminal attitude of the Republican and Democratic parties in relation to this state-wide evil, and believe that reform through either of them is the merest fancy. To the policy of regulation which these parties offer we are unalterably opposed, believing that the only right way to regulate an admitted evil is to abolish it, and we point to the unparalleled growth of the liquor interests under this policy in refutation of any value it may be supposed to possess.

While not denying the sincerity of those who would solve this question by local option, we cannot agree with their method because of its moral effect and its final results. This system of action has failed and

we believe will continue to fail in the settlement of this great problem just as "Squatter Sovereignty," its prototype, failed to destroy human slavery. Our fathers fought them, not to free the Negroes of one state or a dozen, but to defend in all the states the eternal principle of human liberty and justice; and to-day we fight not to drive our curse upon our neighbor, but to win for all the rights and blessings of Christian citizenship.

Regulation and local option, the twin compromises of the hour, have utterly failed to bring relief from saloon anarchy. All methods of this kind are, under the circumstances, the merest subterfuges, for we call attention to the fact that Ohio is fundamentally a prohibition state, the constitution containing the provision that no license shall be granted for the sale of intoxicating liquors within her borders, and we charge that the Republican and Democratic parties with direct and wilful nullification of the purpose and intent of this organic law of the state in their shameless enactment and support of the Dow tax law; believing that the traffic in such liquors is inherently wrong from the standpoint of civic order and the common welfare. In obedience to the simplest laws of common honesty we are opposed to the attempted legalization of such a traffic, for if the traffic is right, it ought to be held in common with all other avocations; if wrong, it can never be made right by any guilty tribute which it offers in the form of license money.

1. *Resolved*, Therefore, that the Prohibition party pledges itself, if by the suffrage of the people it is given the reins of government in Ohio, to effect the absolute prohibition of the manufacture, importation, exportation, transportation and sale of intoxicating liquors for beverage purposes.

2. *Resolved*, That we pledge ourselves to a new emancipation — the freedom of the weakest citizen from the power of the legalized temptation, the freedom of the strongest from the bonds of party; the liberty of all by the downfall of none, and the untrammelled progress of all the best interests of our great commonwealth.

In confirmation of our attitude toward this traffic and our remedy for its evils, believing the true, heartfelt sentiment of the voters of Ohio to be with us, we call upon them to supplement this sentiment against the saloon with a ballot for its annihilation. For in no other way can they escape complicity in the legalization of this great wrong. To the high profession of the churchmen of Ohio, to the conscience of her sturdy sons of toil, to the honest business principles of her merchants and the chivalry of all, we make this appeal for united action at the ballot-box for the overthrow of the common enemy, the un-American saloon.

#### PLATFORM OF THE SOCIALIST LABOR PARTY.

The Socialist Labor party of the United States in convention assembled, reasserts the inalienable rights of all men to life, liberty and the pursuit of happiness.

With the founders of the American republic, we hold that the purpose of government is to secure every citizen in the enjoyment of this right; but in the light of our social conditions we hold, furthermore, that no such right can be exercised under a system of economic inequality, essentially destructive of life, of liberty, and of happiness.

With the founders of this republic, we hold that the true theory of politics is that the machinery of government must be owned and controlled by the whole people; but in the light of our industrial development we hold, furthermore, that the true theory of economics is that the machinery of production must likewise belong to the people in common.

To the obvious fact that our despotic system of economics is the direct opposite of our democratic system of politics, can plainly be traced the existence of a privileged class, the corruption of government by that class, the alienation of public property, public franchises and public functions to that class, and the abject dependence of the mightiest of nations upon that class.

Again, through the perversion of democracy to the ends of plutocracy, labor is robbed of the wealth which it alone produces, is denied the means of self-employment and, by compulsory idleness in wage slavery, is even deprived of the necessities of life.

Human power and natural forces are thus wasted, that the plutocracy may rule.

Ignorance and misery, with all their concomitant evils, are perpetuated that the people may be kept in bondage.

Science and invention are diverted from their humane purpose to the enslavement of women and children.

Against such a system the Socialist Labor party once more enters its protest. Once more it reiterates its fundamental declaration that private property in the natural sources of production and in the instruments of labor is the obvious cause of all economic servitude and political dependence.

The time is fast coming, however, when in the natural course of social evolution, this system, through the destructive action of its failures and crises on the one hand, and the constructive tendencies of its trusts and other capitalistic combinations on the other hand, shall have worked out its own downfall.

We, therefore, call upon the wage workers of the United States and upon all other honest citizens to organize under the banner of the Socialist Labor party into a class-conscious body, aware of its rights and determined to conquer them by taking possession of the public powers; so that, held together by an indomitable spirit of solidarity under the most trying conditions of the present class struggle, we may put a summary end to that barbarous struggle by the abolition of classes, the restoration of the land and all of the means of production, transportation and distribution to the people as a collective body, and the substitution of the co-operative

\* commonwealth for the present state of planless production, industrial war and social disorder; a commonwealth in which every worker shall have the free exercise and full benefit of his faculties, multiplied by all the modern factors of civilization.

STATISTICAL REPORT  
OF THE  
SECRETARY OF STATE.

OFFICE OF THE SECRETARY OF STATE,  
COLUMBUS, OHIO, December 1, 1903.

*To the General Assembly:*

In accordance with the requirements of law, I herewith submit my annual report for the year ending November 15, 1903.

Very respectfully,

LEWIS C. LAYLIN, *Secretary of State.*

\*From 1803 to 1850, the Secretary of State was elected by the General Assembly.

†The Democratic party of to-day claims lineal descent from the first Republican party with President Jefferson as its founder. Authorities differ as to the date when the party dropped the name Republican and assumed that of Democrat, it being ascribed to various dates between 1805 and 1820.

‡Political parties were disorganized at the time of the election of John Q. Adams. He claimed to be a Republican as Jefferson, but his doctrines were decidedly federalistic. The opposition to his administration took the name of Democrat and elected Jackson President in 1828.
